Students and faculty, welcome.
The much awaited Athletic Decision is about to begin.
Translated by Caek

The Athletic Decision event this time is,
One that everyone knows very well...
Live Mine Sweeper
Broadcasting Club Head
Half-Sparrow
Xiao Shan (♀)

It's the moment we all have been waiting for,
Introducing our two competitors...
After this is over I'll send some bombs her way.
That damned sparrow...
Ah, it's that dog Senly, in charge of the Military Club, on the red side.
On the blue side, a newbie!!
Lin, the human transfer student!
.....
Seems like a hassle...

The match will start!
I'm Xiao Shan, your announcer for this event
Best of luck to our two players!
Even if you put it like that...
I'm actually not too sure about the rules.

Any-how...
I can use these flags to clear mines.
Getting to the other side...
Taking that flag is doable.
握紧
Looks like there's a mine right there.
1
1
1
1

啪嗒
Let's try setting off this diagonal one
That explosion...
Way bigger than I had ever expected.
They're not playing around
轰隆
Woah
Don't act rashly and there should be no issue.
But it's quite clear around my feet now.

Lin begins her advance.
Is she preparing to get rid of all the explosives in front?
Wonder what Senly is planning over at the other side
……

The Head of the Military Club hasn't moved an inch
Haha.
That Senly...
She's up to her usual tricks.
Classmate Lin is slowly advancing, let's see what will happen next.
…?

This area has changed a lot
Compared to over there it seems relatively safe
Based on where the ones and blanks are, mines are obvious
I should take care of the easiest spots
That feels like the safest bet.
……

踏
Now's the time!!
I've been waiting.
Time to go on the offensive!

?!
TAKE THIS!!
轰轰轰
What……
They put a flag down over on this side?!

Amazing! Officer Senly spiked down a flag,
Detonating explosives in front of Miss Lin!
煙霧弥漫
煙霧弥漫
Lin... I hope you're okay.

...
Damnit.
Seems like she managed to fall back from the explosion.
Lin only suffered slight wounds!

How foolish.
Failing to take precautions when near a discovered mine like that...
You're putting your head on a platter.
This game involves advancing while also predicting where your opponent will be
So while moving forward, you need to guess and attack
So that's how it is!!

I've got to rush forward
And find a safe place to attack her from
停
Lin is moving quickly and seems to going on a counter attack!
Hah
Hah
Ah, she's stopped on a tile with a 2.
But most of the area around it is still sealed off
There's no way to judge where the mines are.

They're running out of flags, so they can't afford to waste them.
The force of the explosion was too strong, I'm out of breath...
笑
Another direct hit... two of them?!
HOW!?
Gho
Gho
?!

轰
轰
How terrifying! The Military Club Head detonates two mines at once!
How precise! There was no way to know for sure where they were was this just luck?
Can Miss Lin still hold on?!
Lin, hurry and figure out
That technique
The Military Head's secret...

You managed to evade that
No, damage was still done
Next time you won't be able to dodge
Officer Senly unleashes a fierce attack... How will Lin retaliate?!
How is that possible There was no way of knowing what was in those squares...
How did she know where the mines were
大危机…精准计算的秘密…
次回、反击开始！
